

NantHealth Reports 2020 Second Quarter Financial Results

08/06/20

- **Q2 Financial Highlights 2020 vs 2019:**
 - SaaS revenue of \$17.5 million vs \$18.3 million
 - Total gross margin of 58%, up from 56%
- **In July 2020, acquired OpenNMS Group, the world's premier open source network management company**
 - Expands product and service offerings while opening opportunities beyond healthcare
 - Allows teams to leverage complementary AI technologies and capabilities in Cloud and SaaS

CULVER CITY, Calif.--(BUSINESS WIRE)--Aug. 6, 2020-- NantHealth, Inc. (NASDAQ-GS: NH), a next-generation, evidence-based, personalized healthcare company, today reported financial results for its second quarter ended June 30, 2020.

"In July, we completed the strategic acquisition of the OpenNMS Group, Inc., a company with the world's premier open source network management software platform," said Ron Louks, Chief Operating Officer, NantHealth. "This is an exciting transaction for NantHealth because it expands and diversifies our software portfolio and service offerings, enhances our AI, Cloud and SaaS capabilities, and opens market opportunities beyond healthcare.

"In response to the COVID-19 crisis, we supported the healthcare community by launching the NantHealth Cares initiative. As part of this initiative, we made our NaviNet AllPayer platform available to providers for free during the month of May. We believe it is important to do our part during the pandemic to help reduce the financial and capacity strain on hard-hit providers, even if it temporarily impacted our revenue.

"In addition, NantHealth CEO, Dr. Patrick Soon-Shiong, presented a video series exploring the science behind COVID-19. The educational series was made accessible on the [NantHealth.com](https://www.nanthealth.com) website and our NaviNet and Eviti platforms, which garnered more than 10,000 views – over 1,300 hours watched. In addition, NantHealth medical experts hosted two webinars designed to educate our payers, providers and partners on COVID-19. Both webinars generated considerable interest with over 900 registrants each."

Software and Services Highlights:

- **Clinical Decision Support ([Eviti](#)®):**
 - Implemented, through a channel partnership, Eviti Advisor clinical decision support platform with a leading non-profit medical center in New York City
 - In July, significantly expanded Eviti Connect across the Medicaid population of a leading U.S. health insurance company with the addition of two states
 - Leveraged the Eviti platform to educate users on the implications of COVID-19 for cancer care and the science behind emerging treatments through videos and instruction. Also, added a feature enabling payers to gain insights to COVID-19 testing relative to oncology treatment plans
 - Released enhancements to the Eviti platform, including:
 - Return-on-Investment (ROI) reporting: implemented cost savings dashboard enabling more robust and expedited validation of ROI for our customers
 - White blood cell growth factor deviation messaging: added messaging to communicate unexpected use of white blood cell growth factor when a treatment plan is entered, allowing users to make real-time corrections for faster review and approval
- **Payer Engagement ([NaviNet](#)®):**
 - Leveraged the NaviNet platform to enable payers to post updates to their medical policies and other key information – assisting the provider community directly impacted by the COVID-19 pandemic
 - Launched workflow enhancements that enable providers to update prior authorizations already on file with our payer customers. Payers that enable this option as part of their NaviNet Open services can expect to receive more prior authorization requests electronically, while streamlining the process of managing prior authorizations for their providers

Precision Medicine and Artificial Intelligence - Highlights:

- In May, received notice from Molecular Diagnostic Services (MoIDx) of a limited coverage determination for Omics CoreSM
- In June, announced the publication of four abstracts in the developmental therapeutics session of the American Society of Clinical Oncology (ASCO) 2020 Virtual Scientific Program. In collaboration with ImmunityBio, LLC, the company presented data, gathered from its database, which was used to advance findings in molecularly targeted agents and tumor biology

- In June, announced the publication of a study in *JCI Insight*, a peer reviewed journal dedicated to biomedical research. The study, "[Transcriptomic silencing as a potential mechanism of treatment resistance](#)," explained the importance of using both transcriptomics and genomics for patient tumor interrogation to gain actionable insights into reducing the risk of tumor treatment resistance

Business and Financial Highlights

For the 2020 second quarter:

- Total net revenue was \$17.6 million, which included \$17.5 million of SaaS revenue. This compares with 2019 second quarter total net revenue of \$20.1 million, which included \$18.3 million of SaaS revenue and \$1.3 million of home health care services revenue, a business the Company divested on June 7, 2019
- Gross profit increased to \$10.3 million, or 58% of total net revenue, compared with \$11.3 million, or 56% of total net revenue, for the prior year period
- Selling, general and administrative (SG&A) expenses declined to \$12.0 million from \$13.8 million in 2019 second quarter
- Research and development (R&D) expenses increased to \$4.2 million from \$3.4 million, primarily due to investments in product portfolio expansion and growth in data science, machine learning and AI capabilities
- Net loss from continuing operations, net of tax, was \$48.3 million, or \$0.44 per share, which included a non-cash loss from related party equity method investment of \$29.9 million and a \$6.9 million expense from our fair value bookings commitment liability. This compares with the prior-year second quarter net loss from continuing operations, net of tax, of \$17.1 million, or \$0.15 per share, which included loss from related party equity method investment of \$2.2 million
- Non-GAAP net loss from continuing operations was \$7.5 million, or \$0.07 per share, compared with \$6.9 million, or \$0.06 per share, for the second quarter of last year
- At June 30, 2020, cash and cash equivalents totaled \$37.5 million

Conference Call Information and Forward-Looking Statements

Later today, the company will host a conference call at 1:30 p.m. PT (4:30 p.m. ET) to review its results of operations for the second quarter ended June 30, 2020. The conference call will be available to interested parties by dialing 800-708-4540 from the U.S. or Canada, or 847-619-6397 from international locations, passcode 49876109. The call will be broadcast via the Internet at www.nanthhealth.com. Listeners are encouraged to visit the website at least 10 minutes prior to the start of the scheduled presentation to register, download and install any necessary audio software. A playback of the call will be archived and accessible on the same website for at least three months.

Discussion during the conference call may include forward-looking statements regarding topics such as the company's financial status and performance, regulatory and operational developments, and other comments the company may make about its future plans or prospects in response to questions from participants on the conference call.

Use of Non-GAAP Financial Measures

This news release contains references to Non-GAAP financial measures, including adjusted net loss and adjusted net loss per share, which are financial measures that are not prepared in conformity with United States generally accepted accounting principles (U.S. GAAP). The Company's management believes that the presentation of Non-GAAP financial measures provides useful supplementary information regarding operational performance, because it enhances an investor's overall understanding of the financial results for the Company's core business. Additionally, it provides a basis for the comparison of the financial results for the Company's core business between current, past and future periods. Other companies may define these measures in different ways. Non-GAAP financial measures should be considered only as a supplement to, and not as a substitute for or as a superior measure to, financial measures prepared in accordance with U.S. GAAP. Non-GAAP per share numbers are calculated based on one class of common stock and do not incorporate the effects, if any, of using the two-class method.

About NantHealth, Inc.

NantHealth, a member of the NantWorks ecosystem of companies, provides leading solutions across the continuum of care for physicians, payors, patients and biopharmaceutical organizations. NantHealth enables the use of cutting-edge data and technology toward the goals of empowering clinical decision support and improving patient outcomes. NantHealth's comprehensive product portfolio combines the latest technology in payor/provider platforms that exchange information in near-real time (NaviNet and Eviti), and molecular profiling services that combine comprehensive DNA & RNA tumor-normal profiling with pharmacogenomics analysis (GPS Cancer®). For more information, please visit www.nanthhealth.com or follow us on [Twitter](#), [Facebook](#) and [LinkedIn](#).

This news release contains certain statements of a forward-looking nature relating to future events or future business performance. Forward-looking statements can be identified by the words "expects," "anticipates," "believes," "intends," "estimates," "plans," "will," "outlook" and similar expressions. Forward-looking statements are based on management's current plans, estimates, assumptions and projections, and speak only as of the date they are made. Risks and uncertainties include, but are not limited to: our ability to successfully integrate a complex learning system to address a wide range of healthcare issues; our ability to successfully amass the requisite data to achieve maximum network effects; appropriately allocating financial and human resources across a broad array of product and service offerings; raising additional capital as necessary to fund our operations; achieving significant commercial market acceptance for our sequencing and molecular analysis solutions; establish relationships with, key thought leaders or payers' key decision makers in order to establish GPS Cancer as a standard of care for patients with cancer; our ability to grow the market for our Systems Infrastructure, and applications; successfully enhancing our Systems Infrastructure and applications to achieve market acceptance and keep pace with technological developments; customer concentration; competition; security breaches; bandwidth limitations; our ability to integrate OpenNMS into our operations; our ability to obtain regulatory approvals; dependence upon senior management; the need to comply with and meet applicable laws and regulations; unexpected adverse events; clinical adoption and market acceptance of GPS Cancer; and anticipated cost savings. We undertake no obligation to update any forward-looking statement in light of new information or future events, except as otherwise required by law.

Forward-looking statements involve inherent risks and uncertainties, most of which are difficult to predict and are generally beyond our control. Actual results or outcomes may differ materially from those implied by the forward-looking statements as a result of the impact of a number of factors, many of which are discussed in more detail in our reports filed with the Securities and Exchange Commission.
