

Wexford Health Sources, Inc. Selects NantHealth's Eviti® Connect to Bring Evidence-Based Standards and Value-Based Oncology Care to Patients

October 23, 2019

Collaborating to Improve Quality of Cancer Care

PITTSBURGH & CULVER CITY, Calif.--(BUSINESS WIRE)-- [NantHealth](#), Inc. (NASDAQ: NH), a next-generation, evidence-based, personalized healthcare company, announced today its new customer, [Wexford Health Sources](#), Inc. (Wexford Health). Wexford Health, the nation's leading innovative correctional health care company, chose Eviti® Connect, NantHealth's evidence-based treatment intelligence and web-based oncology decision support platform, to ensure inmates receive appropriate care for their oncologic conditions.

"As we continually improve our comprehensive medical program, it's important for us to do so with the well-being of our patients in mind," said Dr. Tom Lehman, CCHP, CCHP-P, Corporate Medical Director of Wexford Health. "High costs and high mortality illnesses are prevalent in our nation's correctional facilities. By collaborating with NantHealth and their Eviti Connect solution, we are now able to streamline oncology authorization allowing patients to begin evidence-based treatment quickly."

Wexford Health is a recognized leader in providing experienced management and technologically-advanced services, combined with programs that control costs and ensure quality. As one of the nation's largest correctional healthcare companies, they provide a full range of medical, behavioral health, pharmacy, utilization management, provider contracting, claims processing, and quality management services. The relationship with NantHealth will allow Wexford Health to continue to build upon their commitment to quality care and technology advancement.

"According to a 2009 [study](#) published in the *American Journal of Public Health*, about 40% of the nation's prison and jail population reported a chronic medical condition such as cancer," said Dr. Sandeep "Bobby" Reddy, Chief Medical Officer of NantHealth. "Wexford Health is setting an example for others to follow by gaining visibility into the cost of care at the regimen level before patient treatment begins and informing treatment decisions with a comprehensive, evidence-based clinical library."

NantHealth's Eviti Connect platform helps ensure that cancer treatment plans are aligned with evidence-based medicine to support high quality patient care. With Eviti Connect, providers can receive treatment authorizations in a timely fashion so patients can begin treatment without delay.

About NantHealth, Inc.

NantHealth, a member of the NantWorks ecosystem of companies, provides leading solutions across the continuum of care for physicians, payors, patients and biopharmaceutical organizations. NantHealth enables the use of cutting-edge data and technology toward the goals of empowering clinical decision support and improving patient outcomes. NantHealth's comprehensive product portfolio combines the latest technology in payor/provider platforms that exchange information in

near-real time (NaviNet and Eviti), connected care solutions that deliver medical device interoperability (DCX device connectivity platform and VCX patient vitals software) and molecular profiling services that combine comprehensive DNA & RNA tumor-normal profiling with pharmacogenomics analysis (GPS Cancer[®]).
