

NantHealth to Report 2016 Second-Quarter Financial Results and Host Conference Call on Tuesday, August 9

August 2, 2016

CULVER CITY, Calif.--(BUSINESS WIRE)-- NantHealth, Inc. (NASDAQ-GS: NH), a next-generation, evidence-based, personalized healthcare company, today announced that it will report financial results for its 2016 second quarter on Tuesday, August 9, 2016 after market close. NantHealth management will host a conference call that same day at 2 p.m. PT (5 p.m. ET) to review the company's performance and answer questions.

The conference call will be available to interested parties by dialing 844-309-3709 from the U.S. or Canada, or 281-962-4864 from international locations, passcode 51734418. The call will be broadcast via the Internet at www.nanthhealth.com. Listeners are encouraged to visit the website at least 10 minutes prior to the start of the scheduled presentation to register, download and install any necessary audio software. A playback of the call will be archived and accessible on the same website for at least three months.

About NantHealth

NantHealth is a transformational healthcare IT company converging science and technology through a single integrated clinical platform, to provide actionable health information at the point of care, in the time of need, anywhere, anytime. NantHealth works to transform clinical delivery with actionable clinical intelligence at the moment of decision, enabling clinical discovery through real-time machine learning systems. The company's technology empowers physicians, patients, payers and researchers to transcend genomics into the world of proteomics and the traditional barriers of today's healthcare system. By converging molecular science, computer science and big data technology the Nant Service Oriented Operating System (NantOS) platform empowers physicians, patients, and payers to coordinate best care, monitor outcomes and control cost in real time. This is the first operating system of its kind in healthcare that is based on supply chain principles and grid service oriented architecture and integrates the knowledge base with the delivery system and the payment system, enabling 21st century coordinated care at a lower cost.
