

Maryland Physicians Care (MPC) Selects NantHealth's Eviti Connect to Validate Treatment For Members with Autoimmune Diseases

November 16, 2021

Building on a long-term relationship with NantHealth's Eviti Connect for Oncology, MPC commits to improving member care and managing costs associated with treating autoimmune diseases

MORRISVILLE, N.C.--(BUSINESS WIRE)-- NantHealth, Inc. (NASDAQ: NH), a leading provider of enterprise solutions that help businesses transform complex data into actionable insights, today announced that [Maryland Physicians Care \(MPC\)](#), an existing customer of the [Eviti Connect for Oncology](#) platform, selected [NantHealth's Eviti Connect for Autoimmune Diseases solution](#) as the foundation for MPC's new industry-leading digital drug authorization program for members living with chronic autoimmune conditions. Eviti Connect for Autoimmune Diseases will enable MPC to gain visibility into drug costs, support proper reimbursements, reduce denials and appeals, and minimize overall cost while increasing patient care.

"We continuously seek innovative ways to serve the people of Maryland by implementing high-quality, value-based, and cost-effective programs that improve care and overall health," said Dr. Jonathan Keyser, PharmD, MBA, Director of Pharmacy at MPC, A Maryland Managed Care Plan. "We're thrilled to roll out the Eviti Connect for Autoimmune Diseases platform to our provider network to enhance the medication approval process for members living with autoimmune conditions. Using the platform will help our members access their medications as needed."

The new agreement allows MPC to extend the knowledge of their clinical teams with independent expertise, streamline authorization workflows for providers and internal staff and confirm that member care complies with medical policy, pharmacy policy, and step therapy requirements.

"At NantHealth, our mission is to help providers and payers expedite the path to appropriate care and reduce wasteful spending, and our collaboration with MPC embodies this mission," said Ron Louks, Chief Operating Officer at NantHealth. "We are excited to enable MPC's provider network to efficiently determine treatments that meet plan requirements at the point of care so members can access treatments for autoimmune diseases when needed."

NantHealth's Eviti Connect is a software-as-a-service (SaaS), evidence-based decision support and treatment validation platform that gives providers and payers confidence to prescribe and reimburse high-quality, high-value care. It has helped payers and providers navigate the complexities of cancer care and has expanded its focus and targets autoimmune diseases aiming to save time on appeals and expedite optimal patient care while managing payer costs.

Forward Looking Statement

This news release contains certain statements of a forward-looking nature relating to future events or future business performance. Forward-looking statements can be identified by the words "expects," "anticipates," "believes," "intends," "estimates," "plans," "will," "outlook" and similar expressions. Forward-looking statements are based on management's current plans, estimates, assumptions and projections, and speak only as of the date they are made. Risks and uncertainties include, but are not limited to: our ability to successfully integrate a complex learning system to address a wide range of healthcare issues; our ability to successfully amass the requisite data to achieve maximum network effects; appropriately allocating financial and human resources across a broad array of product and service offerings; raising additional capital as necessary to fund our operations; our ability to grow the market for our software and data solutions; successfully enhancing our software and data solutions to achieve market acceptance and keep pace with technological developments; customer concentration; competition; security breaches; bandwidth limitations; our ability to integrate The OpenNMS Group, Inc. into our operations; our use and distribution of open source software; our ability to obtain necessary regulatory approvals, certifications and licenses; dependence upon senior management; the need to comply with and meet applicable laws and regulations; unexpected adverse events; and anticipated cost savings. We undertake no obligation to update any forward-looking statement in light of new information or future events, except as otherwise required by law. Forward-looking statements involve inherent risks and uncertainties, most of which are difficult to predict and are generally beyond our control. Actual results or outcomes may differ materially from those implied by the forward-looking statements as a result of the impact of a number of factors, many of which are discussed in more detail in our reports filed with the Securities and Exchange Commission.
