

NantHealth Ranked Number 304 Fastest Growing Company in North America on Deloitte's 2017 Technology Fast 500™

November 15, 2017

Company attributes 276 percent revenue growth in 2017 to GPS Cancer™ and advanced oncology solutions

CULVER CITY, Calif.--(BUSINESS WIRE)-- [NantHealth](#), Inc. (NASDAQ-GS: NH), a next-generation, evidence-based, personalized healthcare company, announced today a ranking of 304 on Deloitte's Technology Fast 500™, a ranking of the 500 fastest growing technology, media, telecommunications, life sciences and energy tech companies in North America.

NantHealth's founder and chief executive officer, Patrick Soon-Shiong, MD, credits GPS Cancer™ adoption, the company's ability to offer the latest software technology that supports advancements in precision medicine and the company's 276 percent revenue growth for the significant accomplishment. Dr. Soon-Shiong said, "Over the years we've seen significant adoption of technology solutions to advance healthcare, and for NantHealth to be a top contender in the health technology space is a testament to GPS Cancer and our best-in-class oncology solutions. We're looking forward to our committed journey toward achieving precision medicine and we are honored to be recognized by Deloitte."

"The Deloitte 2017 North America Technology Fast 500 winners underscore the impact of technological innovation and world class customer service in driving growth, in a fiercely competitive environment," said Sandra Shirai, vice chairman, Deloitte Consulting LLP and U.S. technology, media and telecommunications leader. "These companies are on the cutting edge and are transforming the way we do business. We extend our sincere congratulations to all the winners for achieving remarkable growth while delivering new services and experiences for their customers."

"Emerging growth companies are powering innovation in the broader economy. The growth rates delivered by the companies on this year's North America Technology Fast 500 ranking are a bright spot for the capital markets and a strong indicator that the emerging growth technology sector will continue to deliver a strong return on investment," said Heather Gates, national managing director of Deloitte & Touche LLP's emerging growth company practice. "Deloitte is dedicated to supporting the best and brightest companies of the future in the emerging growth company sector. We are proud to acknowledge the significant accomplishments of this year's Fast 500 winners."

About Deloitte's 2017 Technology Fast 500™

Deloitte's Technology Fast 500 provides a ranking of the fastest growing technology, media, telecommunications, life sciences and energy tech companies — both public and private — in North America. Technology Fast 500 award winners are selected based on percentage fiscal year revenue growth from 2013 to 2016.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company's operating revenues. Companies must have base-year operating revenues of at least

\$50,000 USD, and current-year operating revenues of at least \$5 million USD. Additionally, companies must be in business for a minimum of four years and be headquartered within North America.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee (“DTTL”), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as “Deloitte Global”) does not provide services to clients. In the United States, Deloitte refers to one or more of the US member firms of DTTL, their related entities that operate using the “Deloitte” name in the United States and their respective affiliates. Certain services may not be available to attest clients under the rules and regulations of public accounting. Please see www.deloitte.com/about to learn more about our global network of member firms.

Cautionary Note Concerning Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including, among others, statements regarding the capabilities and anticipated utility of our GPS Cancer, including predicting patient response and resistance to therapeutics, enabling diagnoses by physicians and accelerating efforts to bring novel combinations of therapeutic agents to cancer patients. Forward-looking statements are subject to numerous risks and uncertainties that could cause actual results to differ materially from currently anticipated results. Factors that may cause future results to differ materially from management’s current expectations include, among other things, that GPS Cancer may not perform as anticipated, that sufficient physicians may not adopt GPS Cancer to assist their diagnoses or that healthcare payers may not provide reimbursement for GPS Cancer as expected. Our business is subject to numerous additional risks and uncertainties, including, among others, risks relating to market acceptance of our products; our ability to successfully launch new products and applications; competition; our sales, marketing and distribution capabilities; our planned sales, marketing, and research and development activities; unanticipated increases in costs or expenses; and risks associated with international operations. Information on these and additional risks, uncertainties, and other information affecting our business and operating results can be found in our existing and future filings with the Securities and Exchange Commission. These forward-looking statements speak only as of the date hereof. We disclaim any obligation to update these forward-looking statements except as may be required by law.

About NantHealth, Inc.

NantHealth, Inc., a member of the NantWorks ecosystem of companies, is a next-generation, evidence-based, personalized healthcare company enabling improved patient outcomes and more effective treatment decisions for critical illnesses. NantHealth’s unique systems-based approach to personalized healthcare applies novel diagnostics tailored to the specific molecular profiles of patient tissues and integrates this molecular data in a clinical setting with large-scale, real-time biometric signal and phenotypic data to track patient outcomes and deliver precision medicine. For nearly a decade, NantHealth has developed an adaptive learning system, which includes its unique software, middleware and hardware systems infrastructure that collects, indexes, analyzes and interprets billions of molecular, clinical, operational and financial data points derived from novel and traditional sources, continuously improves decision-making and further optimizes our clinical pathways and decision algorithms over time. For more information please visit www.nanthealth.com and follow Dr. Soon-Shiong on Twitter [@DrPatSoonShiong](https://twitter.com/DrPatSoonShiong).

About GPS Cancer™

GPS Cancer™ is a unique, molecular scan available through NantHealth. GPS Cancer integrates whole genome (DNA) sequencing, whole transcriptome (RNA) sequencing, and quantitative proteomics through mass spectrometry, providing oncologists with a comprehensive molecular profile of a patient's cancer and an assessment of protein pathway function to inform personalized treatment strategies. GPS Cancer scanning is conducted in CLIA-certified and CAP-accredited laboratories, and is a key enabler for [Cancer Breakthroughs 2020](#), the world's most comprehensive cancer collaborative initiative seeking to accelerate the potential of combination immunotherapy as the next generation standard of care in cancer patients. For more information, visit www.gpscancer.com.
