

# NantHealth and Dr. Soon-Shiong Send Letters to Statnews.com Listing Errors and Corresponding Facts

March 16, 2017

CULVER CITY, Calif.--(BUSINESS WIRE)-- NantHealth and Dr. Patrick Soon-Shiong today sent two detailed letters to [Statnews.com](http://statnews.com), listing inaccuracies of what was posted and then the facts.

These two letters address in detail the multiple inaccuracies in Ms. Robbins' reporting on NantHealth, Dr. Soon-Shiong's foundation and Cancer MoonShot 2020. As just one example, in her reporting on Cancer MoonShot 2020, Ms. Robbins asserted that no one would respond to requests for an interview on the scientific progress of Cancer MoonShot 2020, however the truth is she successfully communicated with multiple investigators who provided glowing written reports on the significant progress made during the first year of the Cancer MoonShot 2020 which she ignored.

The two letters follow:

[Response To Stat's False Statements Relating To NantHealth And Dr. Soon-Shiong's Foundation](#)

[Response To Stat's False And Misleading Statements Relating To Cancer Moonshot 2020](#)

We believe a correction and retraction should be issued.
